**Consolidated Assessment Plan Grid AY2020-2021**  
**Assessment Activities by ALL Committees for AY2020-2021**

**Appendices**

**Appendix 1: Educational Outcomes & Competencies**

**Domain 1 – Foundational Knowledge**

**1.1. Learner (Learner)** - Develop, integrate, and apply knowledge from the foundational sciences (i.e., *pharmaceutical, social/behavioral/administrative*, and *clinical sciences*) to evaluate the scientific literature, explain drug action, solve therapeutic problems, and advance population health and *patient centered care*.

- 1.1.1. Comprehend concepts of biomedical and pharmaceutical sciences.
- 1.1.2. Explain the application of the scientific method in drug discovery, research and practice.
- 1.1.3. Utilize concepts of biomedical and pharmaceutical sciences to design and evaluate patient-specific care plans that reduce side effects, increase adherence and improve therapeutic outcomes.

**Domain 2 – Essentials for Practice and Care**

**2.1. Patient-centered care (Caregiver)** - Provide *patient-centered care* as the medication expert (collect and interpret evidence, prioritize, formulate assessments and recommendations, implement, monitor and adjust plans, and document activities).

- 2.1.1. Evaluate patient-specific and evidence-based pharmaceutical care plans.
- 2.1.2. Design a pharmaceutical care plan alone or in collaboration with other health care professionals, patients and/or their caregivers and defense of the plan based on best evidence.
- 2.1.3. Compile and review patient-specific data on a medication profile, performance of prospective drug use review with the introduction of a new medication to determine appropriateness, accurate preparation and dispensing of the medication, and documentation of the patient counseling encounter.

**2.2. Medication use systems management (Manager)** - Manage patient healthcare needs using human, financial, technological, and physical resources to optimize the safety and efficacy of medication use systems

- 2.2.1. Utilize management principles and health care resources in various health care settings to improve the therapeutic outcomes of medication use.
- 2.2.2. Evaluate and budget for pharmacy operations and personnel.
- 2.2.3. Optimize physical and technological resources to fulfill the practice mission.
- 2.2.4. Manage and support medication distribution and control systems.
- 2.2.5. Participate in the management of medication use systems.

**2.3. Health and wellness (Promoter)** - Design prevention, intervention, and educational strategies for individuals and communities to manage chronic disease and improve health and wellness.

- 2.3.1. Develop and participate in wellness and disease prevention initiatives to improve health and reduce disparities in the delivery of healthcare.
- 2.3.2. Promote disease prevention and management across a continuum of care, and contribution to the development of rational and cost-effective health policy on a local, national and global level.

# Consolidated Assessment Plan Grid AY2020-2021

## Assessment Activities by ALL Committees for AY2020-2021

**2.4. Population-based care (Provider)** - Describe how *population-based care* influences *patient centered care* and influences the development of practice guidelines and evidence-based best practices.

- 2.4.1. Evaluate evidence-based disease management programs and protocols which are based upon analysis of epidemiologic and pharmaco-economic data, medication use criteria, medication use review and risk reduction strategies
- 2.4.2. Interpret population-specific data to assess the health needs of a community or population.
- 2.4.3. Utilize and select patient-specific data, population-specific data, quality assurance and research to optimize therapeutic outcomes and patient safety

## **Domain 3 - Approach to Practice and Care**

**3.1. Problem Solving (Problem Solver)** – Identify problems; explore and prioritize potential strategies; and design, implement, and evaluate a viable solution.

- 3.1.1. Demonstrate a questioning attitude and justify therapeutic and practice decisions based on best research combined with clinical expertise and knowledge of patient and community needs and values.
- 3.1.2. Demonstrate the ability to use critical inquiry to test ideas in familiar and unfamiliar circumstances.
- 3.1.3. Retrieve, interpret and challenge the professional, lay and scientific literature to make informed, rational and evidence-based decisions.

**3.2. Educator (Educator)** – Educate all audiences by determining the most effective and enduring ways to impart information and assess understanding.

- 3.2.1. Educate and validate patient, caregiver, and health care professional understanding.

**3.3. Patient Advocacy (Advocate)** - Assure that patients' best interests are represented.

- 3.3.1. Demonstrate and support a professional, caring and covenantal relationship with the patient.
- 3.3.2. Encourage patients and caregivers to take responsibility of their own health care needs.

**3.4. Interprofessional collaboration (Collaborator)** – Actively participate and engage as a healthcare team member by demonstrating mutual respect, understanding, and values to meet patient care needs.

- 3.4.1. Effectively collaborate with health care professionals, policymakers, administrative and support personnel to engender a team approach to patient-centered care.

**3.5. Cultural sensitivity (Includer)** - Recognize **social determinants of health** to diminish disparities and inequities in access to quality care.

- 3.5.1. Select and tailor information to counsel and educate patients and caregivers from different cultures in a caring and respectful manner in different settings using appropriate listening, verbal, nonverbal and written skills.
- 3.5.2. Demonstrate sensitivity, tolerance and respect for the values, dignity and abilities of diverse populations.

**3.6. Communication (Communicator)** – Effectively communicate verbally and nonverbally when interacting with an individual, group, or organization.

- 3.6.1. Effectively communicate with health care professionals in interdisciplinary relationships to assure safe, efficient, cost-effective utilization of human, physical, medical, informational and technological resources.
- 3.6.2. Effectively convey, in oral and written form, biomedical and pharmaceutical science to inform patients, caregivers, healthcare professionals and the community.

# **Consolidated Assessment Plan Grid AY2020-2021**

## **Assessment Activities by ALL Committees for AY2020-2021**

### **Domain 4 – Personal and Professional Development**

**4.1. Self-awareness (Self-aware)** – Examine and reflect on personal knowledge, skills, abilities, beliefs, biases, motivation, and emotions that could enhance or limit personal and professional growth

4.1.1. Set and assess personal and professional goals and priorities, effective planning and management of time, and organization of work.

4.1.2. Assure professional competence by assessing learning needs and designing, implementing and evaluating strategies to promote quality health care and career growth.

4.1.3. Commit to continuous professional development by maintaining and continually evaluating one's professional portfolio.

**4.2. Leadership (Leader)** - Demonstrate responsibility for creating and achieving shared goals, regardless of position.

4.2.1. Collaborate and support others to build a shared vision that unites members of a work team through mutual respect, responsiveness and empowerment.

**4.3. Innovation and Entrepreneurship (Innovator)** - Engage in innovative activities by using creative thinking to envision better ways of accomplishing professional goals.

4.3.1. Anticipate, adapt, and promote changes important to accomplishing the goals of the pharmacy profession in response to societal needs.

4.3.2. Collaborate with members of the inter-professional health care team to identify novel solutions to emerging problems.

**4.4. Professionalism (Professional)** - Exhibit behaviors and values that are consistent with the trust given to the profession by patients, other healthcare providers, and society.

4.4.1. Demonstrate a personal and purposeful commitment to improving the pharmacy profession through interactions with other health professionals, professional memberships and participation in professional activities.

4.4.2. Demonstrate compassion, productivity and responsibility by serving in volunteer and community activities

4.4.3. Rationalize ethical decisions that balance legal, ethical, social and economic concepts and principles in the delivery of patient centered care and the management of a pharmacy business.

4.4.4. Demonstrate an initiative and a willingness to take responsibility for one's patient, community and profession.
