

D'YOUVILLE

SCHOOL OF PHARMACY

Three-Year Doctor of Pharmacy

Accelerate your career by becoming a licensed Doctor of Pharmacy with a degree from the fully accredited D'Youville University School of Pharmacy.

With small class sizes and engaged, student-centered faculty and curriculum, the D'Youville University School of Pharmacy—an ACPE-fully accredited PharmD program—prepares you for your future role as a practitioner with the kind of experience pharmacists need to be practice ready upon graduation and for years afterward. **Our three-year, trimester-based program fast-tracks you to success.**

DYU finds placements for PharmD students with rotations anywhere in the US.

Elective placements may also include opportunities for practice experience and service in Australia, Ecuador, Turks and Caicos, Ireland, and Guatemala.

Rotations consist of two electives, ambulatory care, advanced institutional pharmacy practice, advanced community pharmacy practice, and advanced hospital pharmacy practice.

D'YOUVILLE

SCHOOL OF PHARMACY

Vital Pharmacy

Located inside D'Youville's Health Professions Hub, our Vital Pharmacy bridges the gap between patients and their healthcare teams. This full-service pharmacy brings access and education to the greater community. It provides pharmacy students the opportunity to collaborate with our team of clinical pharmacists as they communicate directly with providers.

Additional Opportunities

D'Youville pharmacy students join the Student Chapter of the American Pharmacists Association Academy of Student Pharmacists (APhA-ASP) can participate in 12 student pharmacy organizations and professional fraternities. perform service to the community through initiatives like drug take-back drives, making presentations on the dangers of abusing prescription drugs, flu and COVID immunization clinics, administration of Naloxone, heartburn awareness presentations, health screens such as blood pressure and glucose tests at community events, fundraising walks, and medicinal garden exhibits.

Coursework in the natural and social sciences is integrated with practice experience so students learn, remember, and apply what they've been taught.

The Accreditation Council accredits D'Youville School of Pharmacy's Doctor of Pharmacy program for Pharmacy Education. Details at: acpe-accredit.org
