

D'YOUVILLE UNIVERSITY

Procedures for Students Seeking Health Services

Responsible Unit: Student Affairs

D'Youville University launched the Health Professions HUB in 2021 which offers community access to primary care, dietetics, a full-service pharmacy, chiropractic, occupational therapy, and physical therapy. Students are encouraged to utilize these services in accordance with their health insurance policies.

Students who do not select the Health Professions HUB as their primary care provider are directed to one of several local urgent care facilities near the University including Western New York Immediate Care located at 2228 Delaware Avenue and WellNow Urgent Care located at 1597 Elmwood Avenue.
